

47 DAYS RF WIZARD

Shoaib Mustafa

July 21, 2024

DAY 1

Summary

I've decided that i'll be documenting my progress in latex as this will be helpful when i'll be writing thesis. it's also a prettier and much more of a sane documenting process considering the mathematical equations i'll be pushing here. Spent the day setting up environment for setting up latex and supporting software, latex is now working. i've learnt The following commands and decided to test this out.

I have gotten in contact with some ham radio enthusiasts on reddit and Pakistan and they've guided me alot about the physical problems i'll be facing. I think i'm all set for failing. when i do they are

Progress

I'm using this [Tutorial](#) as reference for practice.

- Step-2
- Step-3
- Step-4
- Step-5

Here's an enumerated list.

1. item1

2. item2

3. item3

4. item4

Math can be inserted in the following way

$$F = ma$$

And

$$E = mc^2$$

This is how you add a table by tabular command.

1st column	2nd column	3rd column	4th	5th
a	b	c	d	e
